Volume 2, Issue 3

Winter 2007-08

Detailed Occupational Outlook

Saskatchewan Job Prospects (2006-2011)

This profile provides medium term employment outlooks for nearly 400 occupations in Saskatchewan over the 2006 to 2011 period. Excluded occupations are those with fewer than 100 people employed or jobs placed in the catch-all category of "other". Profiled occupations are ranked as having good, fair, or limited employment prospects.

- Good prospects - 137 occupations (36%)
- Fair prospects - 195 occupations (50%)
- Limited prospects - 54 occupations (14%)

These rankings were developed in the fall of 2007. Current and future labour market indicators were used to develop the prospects (see page 10 for further details). Rankings were developed for use in the Saskatchewan Job Futures suite of products including the Saskatchewan Job Futures Job Chart. For more detailed information on these jobs, go to www.saskjobfutures.ca.

Occupations are arranged by employment outlook, then by skill level (alterations between white and blue sections indicate a change in the skill level). Supporting information for each occupation includes the skill level, number of people employed, and an average full-time/full-year wage estimate.

The National Occupational Classification (NOC) system provides a standardizing framework for organizing occupations according to skill level and skill type. **Skill level** classifies occupations by the level of education or training that is usually required for a given occupation. The following table provides a description of the skill levels used in this document.

Skill Level	Level of Education or Training Usually Required
A – university degree	• University degree
B – post-secondary certificate/diploma	• 2 to 3 years of post-secondary education at a community college, institute or technology; *or* • 2 to 4 years of apprenticeship training; *or* • 3 to 4 years of secondary school and more than 2 years of on-the-job training, training courses of specific work experience; *or* • Occupations with supervisory responsibilities; *or* • Occupations with significant health and safety responsibilities
C – high school/ on-the-job training	• 1 to 4 years of secondary school education; *or* • Up to 2 years of on-the-job training, training courses or specific work experience
D – less than high school completion	• Up to 2 years of secondary school and short work demonstration or on-the-job training

Data Details

Information used in the indicators includes:

- **Current labour market indicators**: recent employment growth, employment growth from the Census, share of recent total employment growth, wage rates, changes in average hours worked and unemployment rates.
- **Future labour market indicators** : Saskatchewan Employment Forecast (SEF) five-year growth rates and attrition rates, and shares of SEF forecasted growth.
- **Other data**: administrative data such as new immigrant and foreign worker activity, Employment Insurance claims and SaskJobs.ca vacancies. Other related qualitative data was also used.

Other data sources:

- The number of people employed in Saskatchewan - 2006 Estimate.
- Full-time/Full-year wage estimate - developed by SaskTrends Monitor using 2001 Census and the Labour Force Survey, Statistics Canada.

Did You Know?

- Saskatchewan's population was 1,003,299 people as of October 1, 2007. This is an increase of 6,430 people over the previous quarter and was the sixth consecutive quarterly population increase.
- In 2006/07, Saskatchewan experienced a net gain of people (3,999) through inter-provincial migration. This was the first annual net inflow from inter-provincial migration since 1983/84. The province also had a net gain from immigration of 2,511, up 56% from 2005/06.
- The province is increasingly drawing people from Alberta. In the third quarter of 2007, Saskatchewan had a net gain of 3,362 people from Alberta, more than twice the gain from the second quarter and a reversal from the 2006 third quarter loss of 994 people to Alberta.
- Between 1997 and 2007, the median age in Saskatchewan rose 3.1 years to 37.7 years. Saskatchewan's median age remains lower than the national average of 39.0 years due to its large youth population.
- In 2007, employment in Saskatchewan was up by 10,200 (2.1%) from 2006.
- In 2007, Saskatchewan was tied for the second lowest unemployment rate in the country at 4.2% and below the national average of 6.0%.
- The province had the third lowest **youth** unemployment rate in the country at 7.8% (behind Alberta at 7.2% and British Columbia at 7.6%), well below the national average of 11.2%.
